

AI Envisioning Workshop

Develop your AI strategy with an AI Envisioning workshop. Together, we'll explore AI technologies, practical applications, and actionable use cases that can save you time and make you more productive

Time: 2-Hour Virtual Session

Designed for: Business Leaders, Executives, and IT Leaders

Deliverable: Custom AI Roadmap

Workshop Agenda

1. Discuss Your Business Challenges and Goals (45 minutes)

We'll work with you to understand your business operations and key pain points, discuss your current challenges, and explore areas where AI and process automation can provide value.

2. Explore AI Technologies (30 minutes)

We'll introduce the technology behind AI solutions—including Azure AI, Microsoft Fabric, Microsoft 365 Copilot, and more.

3. Discover AI Use Cases Tailored to You (45 minutes)

We'll explore potential AI solutions that align to your business goals and challenges – showing how they can address your needs and deliver measurable benefits.

AI Envisioning Workshop

Including these team members ensures a comprehensive understanding of AI's potential across all facets of the organization. Their diverse perspectives will drive more effective and innovative AI strategies.

Time: 2-Hour Virtual Session

Designed for: Business Leaders, Executives, and IT Leaders

Deliverable: Custom AI Roadmap

Who should attend?

Executives

Leaders responsible for specific areas such as finance, operations, and sales.

Business Owners

Visionaries who drive the overall strategy and growth of the company.

IT Leaders

Technicians who ensure the seamless integration of AI solutions.

AI Envisioning Workshop

After the workshop, you'll receive a custom AI roadmap tailored to your organization. This roadmap will help you identify practical AI applications, optimize costs, and achieve measurable results.
